ARCOROC

EVERYDAY PROOF

Luminarc®

Feel Creative

EAGM is a family business that has been established for over 70 years with a presence of showrooms and offices in Kenya (Mombasa & Nairobi), Tanzania (Dar es Salaam) and Uganda (Kampala). We pride ourselves in specialising to provide personalised solutions for organisations ranging from, Kitchen to Table to Disposal.

As a multi-generational organisation, we have been able to strongly partner with many globally recognised brands including, Arcoroc, Chef and Sommelier, Luminarc, RAK Porcelain, Lacor, APS and Bon Appetit. All these brands are globally recognized and have full product mix which can serve and satisfy any hospitality unit or project.

We have partnered with numerous Hotel chains, Individual Boutique Hotels, Bars, Restaurants, Schools, Hospitals, Government Organisations, Supermarkets, and other hospitality establishments in all three regions to supply tailored Food Service items which include Crockery, Cutlery, Kitchen Tools, Serving solutions, Buffet solutions, Room service, Cleaning and Hygiene, Table decors, Kitchen light equipment, Food preparation products, Baking solutions to mention but a few.

Thank you for choosing us to be your partner of choice.

RAK
PORCELAIN

The Banquet series consists of over 100 items for catering professionals and their daily needs. This series is a perfect combination of functionality, durability and minimalist elegance.

QUALITY

Oven + 300 °C

The RAK oven safe porcelain gradually increases in temperature to ensure gentle cooking of food meaning your dishes will keep their flavour longer.

Microwave

RAK porcelain ensures cooking or quick reheating without altering the taste or flavour of your dishes.

Holding of temperature

Once put on the table the dishes keep their heat ensuring the content remains at the right temperature giving you the time to enjoy it.

Dishwasher

The RAK porcelain's smooth enamel is quick and easy to clean. Thanks to the quality, your tableware will stay as new for a long time.

Mechanical shock

The exceptional hardness of the RAK porcelain ensures it is highly chip and shock resistant. It is therefore very easy to stack.

Thermal shock

From the freezer to the microwave, RAK porcelain withstands differences in temperature thanks to the exceptional hardness of its material making it highly thermal shock resistant.

100% Hygiene

RAK cooking porcelain is a 100% natural, guaranteed lead-free product. It is non-porous and does not absorb grease, odours or bacteria ensuring you optimum hygiene.

Introduction

**Versatile series
in original and sharp
designs tailored to
the hospitality industry**

RAK Porcelain created cutlery which fuses function and refinement, transforming dining into an exploration of the senses. In this catalogue, we imagine cutlery as the vehicle through which food embarks on a journey from kitchen to table, from creation to consumption. Supported by the hand, cutlery serves as a delicate and intricate bridge between the culinary world and the taste buds.

RAK Porcelain's cutlery is characterised by its unrivalled longevity, showing off state-of-the-art technology which allows for the cutlery to be created with designs that blend with all kinds of atmospheres and trends. Generous curves, sharp designs, or timeless classics with clean, contemporary lines, the RAK Porcelain cutlery collection is available in various styles that lend your tables an ultra-chic look and are suitable for a variety of establishments from casual to fine dining. A natural addition to its range of hotel porcelain, the cutlery collection is based on detailed observations of the needs and expectations of the hospitality industry worldwide. The cutlery collection features the same characteristics as those contributing to the success of RAK Porcelain and therefore guarantees optimal quality and functionality.

The strongest stainless steel (AISI 304) has been used to create cutlery in 18/10 and in magnetic 18/0. Our various series in 18/10 stainless steel contain 18% chrome which ensures excellent resistance to oxidation, and 10% nickel to increase the material's food neutrality, whereas the newly added Kampton in 18/0 is fully magnetic and thus facilitates the meal services of high-intensity hospitality establishments. Each cutlery series is between 3 and 4 mm thick, making it outstandingly sturdy and ergonomic. We conduct thorough research and carefully select only the highest-quality suppliers to entrust with the production of our cutlery. All our suppliers respond to the exhaustive requirements of the hospitality industry in terms of production and quality, and we ensure that each one of them provides a safe and sustainable working environment.

So, as you sit down to dine, remember that cutlery is more than just a tool, it's the vehicle that connects plate to palate which delights the senses with every carefully chosen bite.

Handling guidelines

RAK Porcelain stocks both stainless steel cutlery in 18/10 and in magnetic 18/0. All our currently stocked cutlery is dishwasher safe.

To prolong the life of your cutlery for as long as possible, we recommend you care for them as follows:

- Don't throw any cutlery into a storage container after service to avoid scratches.
- Wash them under running water after use, as stains develop quickly if salty components and acids contained in food are not removed.
- Place the cutlery in the cutlery basket with the handles pointing downwards to ensure that the water jets access all soiled parts in optimum effect.
- Ensure that the blades of knives placed in the cutlery holder do not touch other metal utensils, so that stains and damage by other items can be avoided.
- Don't put steel cutlery and silver-plated cutlery in the dishwasher at the same time because different metals combined with cleaning agents can cause different chemical reactions.
- Steam and condensation due to hot water cause staining and premature corrosion, cutlery should be dried as soon as possible to remove all traces of water.
- Stains are also caused by aggressive detergents and their excessive usage, therefore check washing installations regularly.

Stainless steel does not rust, but stains, stubborn dirt, and corosions may appear from high-acidic food or other metallic items in your sink or dishwasher. If these marks do appear, they can be easily removed with a scouring sponge or with a proprietary stainless steel cleaning cream.

Wash cutlery separately and avoid contact with other metal ware as cutlery gets rusted in dishwashers due to corroded materials such as screws or rivets from saucepans or frying pans and due to contact with cast-iron, silver, silver-plate or steel wool.

Water hardness: The amount of salt in the dishwasher depends on the hardness of the supply. It is important to follow the manufacturer's recommendations, as an incorrect dose may have a negative effect on cleaning results, cutlery lifespan as well as the service life of the machine.

Chef&Sommelier

Chef&Sommelier™ symbolizes an art of living that embodies the richness of French gastronomy and oenology.

Chef&Sommelier™ imagines glassware collections with pure and elegant design.

It offers a unique signature for serving fine tables, and the demanding professionals who seek to sublimate their savoir-faire, while awakening the senses and creating unforgettable tasting experiences for guests.

The Chef&Sommelier™ collections are part of a world of innovation, passion, elegance and exacting standards.

With Chef&Sommelier™, make way for pleasure, creativity, discovery and shared authenticity!

It is reassuring to know that all Chef&Sommelier™ items are produced in Krysta™, a new-generation of crystal glass, which is made in France in the "Haut de France" region.

Chef&Sommelier™ is an ARC Group brand, benefiting from the know-how and heritage of this major industrial group. It was founded in 1825 and has since become the world leader in tableware.

ARCOROC

It's all part of every day, and every service.

At Arcoroc™, we know this very well; we've been creating tableware products since 1958.

Arcoroc™ has developed a range of innovative and functional global tableware solutions, designed for intensive use in the catering industry, which is now recognized worldwide and makes us the preferred partner of the world's leading hotel, restaurant and bar chains.

This has led to an unrivalled presence, made possible by our unique know-how and constant quest for innovation in materials and design.

Ultimately, Arcoroc™ has the sole aim of resisting both the pressure and rhythm of your daily life, but also matching your creativity and desire to satisfy your customers.

Arcoroc™ also develops sustainable product solutions that are easy to transport, healthy, hygienic, and have a reduced carbon footprint, so that together we can build the responsible and fair catering of tomorrow.

Arcoroc™ is a brand of the ARC Group, and benefits from the know-how and heritage of this major industrial group that was founded in 1825. It has since become the world leader in tableware.

Why EAGM?

- Quality Products
- Renowned Brands
- Wide Range
- Customized Products
- Showroom Experience
- Team of professional experts
- Durability
- Stock availability
- High return on Investment
- Regional coverage
- Timely deliveries
- Reliable Partner
- Solution to your needs
